## Logistics Services Makes Your Job Easier

It's all about getting your products to stores to be sold to customers, right? That's a lot more complicated than it sounds.

That's why you can rely on UNFI's Logistics Services to get your products to our warehouses. Whether natural or conventional, we've got you covered.

### All-in-One Fee Structure Saves You Money

UNFI's pricing includes:

- Transportation cost
- Fuel surcharges
- Unloading fees
- Appointment-related fees

No unexpected costs or additional charges.

### Excellence in Operations

- Extensive intermodal, over-the-road, dedicated fleet, LTL
- Dedicated 365-day, cross-dock program for Chill, Frozen and Dry
- We take ownership of product transitioning at time of pickup
- Drop-trailer program at all UNFI warehouses
- We partner with national best-in-class carriers with high-volume capacity commitments coast to coast
- Extensive supply chain technology portfolio

### State of the Art Operations

- Modern, high-tech communications and tracking
  - Peoplenet communications in tractor
  - CoolTrax for trailer GPS and door/temp monitoring
- Fleet consists of International tractors and Utility trailers (with Thermo King units, Prescient series M6000 and M610)
- 1,800 plus power units
- 3,900 refrigerated trailers
- Average age of fleet is under 5 years old
- Annual miles 170MM

### At Your Service

- Highly-qualified staff
- 60 experienced associates located coast to coast
- In constant contact with carriers, purchasing and warehouses to ensure safe and timely delivery
- Our EDI system lets us track carriers to see exactly where your products are at any time
- Appointment information online, anytime. Any supplier with access to our supplier portal can get information about their products' delivery appointment times

## Tips to Ensure Fast and Safe Delivery of Your Products

### BLOCK AND BRACE YOUR SHIPMENT WITH LOAD BARS OR AIRBAGS

It's up to you to make sure your products are properly packed and ready for transit.

### CHECK PRODUCT TEMPERATURE BEFORE LOADING

Remember that the refrigeration unit is meant to maintain temperatures, not change them.

### CHECK TRAILER TEMPERATURE SETTINGS

Double check the temperature in the refrigeration unit BEFORE your products are loaded. If you think there's a problem, contact your UNFI buyer right away so they can take action.

### NOTIFY US OF SHORTAGES OR DELAYS

If the quantity being shipped doesn't match the purchase order, please let your buyer know ASAP. Also, if your product isn't going to be ready by the appointment time, please let us know so we can cancel and reschedule.
